Dear [REDACTED],

Leeds East Airport Airspace Change Proposal

Thank you for your letter of 7th March 2019 seeking advice on the specific air navigation guidance which should be followed by Leeds East Airport for its current airspace change proposal.

We have considered the points you made in your letter, including the expected limited noise impacts of the proposal, the length of time this airspace change proposal has already taken, the fact that the original consultation concluded in June 2017, and that the amended proposal being consulted on differs little from the original proposal.

After considering these points, we are satisfied that it is proportionate for Leeds East Airport to continue to follow the requirements of the Air Navigation Guidance 2014 for this specific airspace change proposal.

Please also note that this decision relates to this specific case, and any similar cases from other airports will, of course, be treated on a case by case basis.

I hope this is helpful.

Yours sincerely,

[REDACTED]
